## Profile

I am currently seeking an engaging role in a respected company where I can tackle challenges, enhance my skills, and apply my knowledge to solve real problems. I'm enthusiastic to learn whatever the market needs and I'm open to working in different areas because it helps me gain valuable experiences that are essential for becoming a skilled IT Engineer.

## Education

2022 – 2025 Nanded, India	<b>Bachelor of Technology in Computer Science and Engineering</b> <i>Shri Guru Gobind Singhji Institute of Engineering and Technology, Vishupuri Nanded.</i> CGPA :- 8.88
2019 – 2022 Nanded, India	<b>Diploma in Electrical Engineering</b> <i>Government Polytechnic, Nanded.</i> Percentage :- 91.61%
2019 Nanded, India	<b>SSC</b> <i>Mahatma Phule High School, Nanded.</i> Percentage :- 83.40%

## Internship

### Coding Raja Technologies

*Resume Builder*

Developed a resume generation website using HTML, CSS and Javascript in which user can enter their details and get resume in proper format.

### GenAIKit (Intern for 1 month)

Proficient in generative AI technologies, including OpenAI's GPT-4 and DALL-E, with hands-on experience in developing and deploying applications for natural language processing and image generation. Skilled in using LangChain for creating complex language model workflows and familiar with Retrieval-Augmented Generation (RAG) for enhancing AI responses through information retrieval.

## Projects

### Notes-pro

*Android Application*

Notes Pro is a feature-rich Android application designed for efficient note-taking. It enables users to create, edit, manage, and store notes seamlessly. The app leverages modern design principles and Android development best practices to deliver a user-friendly and robust note-taking experience.

### Personal Portfolio

*React.js Website*

Developed a dynamic and visually engaging personal portfolio website using React.js, HTML, CSS, and JavaScript. The site effectively showcases projects, skills, and experience in web development, serving as a comprehensive platform for both professional and academic accomplishments.

### Parental\_App

*Android Application*

Developed an application that allows parents to manage their children's health by tracking meal records, recording polio dose dates, and maintaining a detailed health diary.

## Skills

### Programming Languages:

C, Java, Python, C++, Javascript

### Tools(Developer/Designing/Version Control):

VS Code, Canva, Figma, Git, Github

### Technologies/Frameworks:

Android Basics, HTML5, CSS3, Basics of React.js, Generative AI(Langchain, OpenAI), Retrieval Augmented Generation (RAG)

### Soft Skills:

Problem Solving, Multitasking, Time Management, Thinking, Adaptability, Decision Making

## Certificates

### Hack fusion Hackathon (SGGSIE&T):

Participated in 36 Hours non stop Hackathon.

### Rmagedon (SGGSIE&T):

Participated in Path Blazer game of Robotics Competition.
